

inspiring

youth solutions

The development of a CD Rom that will enable users to facilitate peer led community action—specifically a Youth Drug Forum. The resource contains all the necessary background information, workshop and presentation material required to successfully facilitate the entire Forum process. The CD Rom will be supported by training.

Project Aims:

- ◆ Increased knowledge of youth drug issues
- ◆ Increased knowledge of the Forum model and the stages of planning, implementation and evaluation
- ◆ Increased access to Youth Drug Forum resources
- ◆ Increased skill level for implementation of a Youth Drug Forum at the high school and community level
- ◆ Increased access to professional support and advice in regards to implementing Youth Drug Forums
- ◆ Opportunities to develop Networks

Timeframe: July 2006 - December 2007
